

WIDESCREEN NOTEBOOK COOLER

Introduction

W i d e s c r e e n notebook cooler

Widescreen notebooks (17") are now mainstream products; they are popular for multi-media use which pushes the PC to hi-performance levels. Heat is a by-product of intensive use, and too much heat can cause operational problems.

Notebook cooler 02 to the rescue.

This is a stylish and quality built all aluminium product. The surface is channelled to increase airflow and rubber non-slip pads are present to secure your NC-PC in position. Two ultra quiet fans blow cool air directly onto the notebook base. Power is taken from an USB port and an illuminated blue LED USB cable is supplied. The unit has 2 USB ports so an ancillary device can be connected via the notebook cooler.

Keeping your notebook cool cuts down any chance of operational errors caused by overheating and extends notebook life, battery efficiency is also improved.

Features

- Strong stylish aluminium body
- Channelled aluminium surface for efficient cooling
- Locally powered direct from the notebook USB
- Two ultra quiet 70mm fans with power switch
- Sloping design provides comfortable typing position
- Second USB port for ancillary device

Specification
